A Bozz and impudent burglary was committed in the small hours of yesterday morning at Mesars Sayle & Cor's premises, Queen's Road Central, in the very heart, it may be said, of the business portion of the town. The selection they had made was choice and varied, and the most valuable articles had been chosen. The thieves are supposed to have got in by the roof, and in all probability they had removed their plunder by the same means of communication. THE OHINA REVIEW.

THE widely-expressed regrot at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, de., should the papers published demand, and the circulation justify, such extra matter.

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents Government House. North of Public in Hongkong half-yearly in advance.

The publication includes papers original

and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are aspecially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in each number of the contents of the most recent works bearing on Chinese mutters. Great attention is also paid to the Review

department. Notes and Replies are classified together as "Notes" (head references being given, when furnished, to provious Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in band. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August. 1875, is at hand. It says that forty-two .essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Poetry in this volume is alone worth the price of the Leview. Address China Review, Hongkong.-Northern Christian Advocate (U.S.)

Trubner's Oriental Record contains the following notice of the China Review :- " This is the title of a publication, the first number of which has lately reached us from Hong. kong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uninese Customs' corps, and the missionary body, among whom a high degree of Chinose scholarship is now assidnously cultivated, and who are severally represented in the first number of the treview by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. U. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Buside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to Foul find a place in its pages also. It is to be Thr hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Review may receive the support necessary to insure its continuance, The publication is intend

## THE CHINESE MAIL.

ed to appear every two months, and will

form a substantial octavo magazine.

This paper is now issued overy day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports. It is the first Chinese Newspaper ever

issued under purely native direction. The chief support of the paper is of course derived from the native community. amongst whom also are to be found the guaranters and securities necessary to place it on a business and legal footing. The projectors, basing their estimates

upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Salgon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this descrip tion—conducted by native elloris, but progressive and anti-obstructive in tone-In almost limitless. It on the one hand Chinese belief and interest the other deserves every aid be given to it by foreigners. Like English journals it contains Editorialswith Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to
